

The SHORTEST path between TRACKING and COMPLIANCE.

The CycleTrak robotic module tracks and records reprocessing cycles for da Vinci Xi, Si, Sp instruments and accessories. It is a simple and affordable solution that helps facilities track the number of reprocessing cycles on their da Vinci instruments and accessories for patient safety and IFU compliance.

AFFORDABLE
all-inclusive system

FOCUSED
solution ensuring compliance

SIMPLE
to install, use and maintain

Key Features

- Create and maintain an inventory of uniquely identified da Vinci Xi, Si, Sp instruments and accessories
- Ability to track and record at the individual instrument level
- Track and record each time an instrument is reprocessed
- Retirement alert when an instrument is about to exceed its maximum number of reprocessing cycles
- Preloaded catalog of da Vinci Xi, Si, Sp instruments and accessories for convenience and peace of mind
- Validated barcode labels for easy instrument identification
- Simple report generation for audit compliance
- Cloud-based software used with your existing computer & scanner equipment

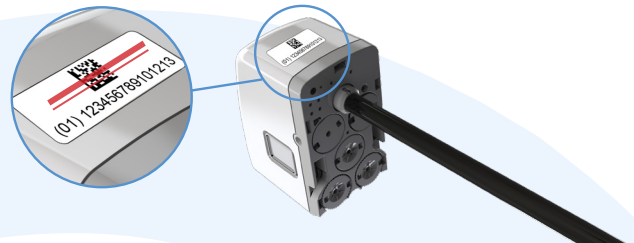

Includes

- Everything you need to immediately start tracking instruments
- One year subscription agreement

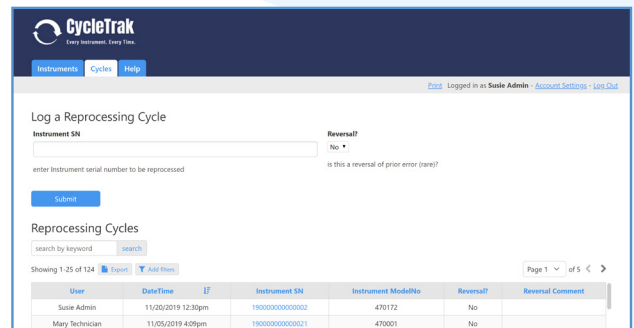

System Requirements

- CycleTrak can run on any computer with an Internet connection and a browser (preferably Chrome; Internet Explorer IS NOT currently supported)
- Requires a connected barcode scanner that supports the data matrix symbology
